Early Detection Exams will be offered for Breast, Prostate, and Colon Cancer.
Lung Cancer Awareness information also will be provided.

*Please note that the dates are tentative. Please check the Cancer Program's website at www.harthosp.org/cancer or call (860) 545-1105 for the most up-to-date information.

*No charge prostate cancer early detection testing, provided by Clinical Laboratory Partners, is specifically designed for men above age 40 who have not been tested in the past year.

*Mammograms- Women eligible for these screening mammograms must not have had a mammogram or breast biopsy in the past year and do not have breast implants or a personal history of breast cancer. A baseline mammogram is recommended for women between the ages of 35 and 39; annual mammograms are recommended for women age 40 and over. Your health insurance will be billed for this service, so please bring your insurance card. If you do not have health insurance coverage, the cost of the mammogram will be covered by donated funds.

If you would like more information, please visit the Cancer Program's website at www.harthosp.org/cancer or call (860) 545-1105.
