February 28, 2012

This is to certify that at a meeting of the Court of Common Council, February 27, 2012, the following RESOLUTION was passed.

**WHEREAS**, The Department of Public Works has determined that the City of Hartford collects approximately 18,000 mattresses per year from curbside and from illegal dumping locations in Hartford and the cost of disposal and/or recycling is approximately \$180,000 per year; and

**WHEREAS**, The Connecticut Resources Recovery Authority and all waste-to-energy facilities have indicated that mattresses damage their incineration equipment and, therefore, they charge disposal fees at a level that discourages delivery to these facilities; and

**WHEREAS**, Extended producer responsibility (EPR) legislation places the financial responsibility on mattress manufacturers for the end-of-life management of their product and the associated costs of disposal and/or recycling; and

**WHEREAS**, Similar EPR legislation for electronic waste has saved Hartford and other Connecticut municipalities thousands of dollars annually, provided a recycling outlet for unwanted electronics, and has created economic opportunity and private sector jobs in Connecticut; and

**WHEREAS**, EPR legislation for latex paint, enacted in Connecticut in 2010, is also expected to save thousands of dollars annually in municipal paint disposal costs and will provide residents with convenient locations for paint recycling; and

**WHEREAS**, EPR legislation for mattresses will save Hartford and all Connecticut municipalities thousands of dollars annually in storage, transportation and disposal costs and will provide a outlet for recycling mattresses that will contribute to increasing Hartford's recycling rate; and

**WHEREAS,** A Canadian mattress recycler, Recyc-Mattresses, has signed a 3-year lease to establish a recycling facility on the Hartford-Windsor line which will provide recycling services to municipalities, retailers, institutions, and manufacturers throughout Connecticut, Massachusetts, and Rhode Island and will generate between 15 and 20 jobs for residents of the Greater Hartford area; and

**WHEREAS,** The Department of Public Works, under the direction of Mayor Segarra, has drafted statewide legislation to establish an Extended Producer Responsibility Stewardship Program that will require mattress manufacturers to cover the cost of mattress disposal/recycling for all municipalities and institutions; and

**WHEREAS,** Enactment of such legislation will eliminate the costs of municipal mattress disposal, increase recycling, and encourage job creation; now, therefore, be it

**RESOLVED,** That the Hartford Common Council hereby indicates its support for the passage of mattress EPR legislation that will require mattress manufacturers to finance and manage the disposal and recycling of their products.

This is to certify that at a meeting of the Court of Common Council, February 27, 2012, the following RESOLUTION was passed.

**WHEREAS**, Connecticut burns about 80% of its non-recycled waste, landfills 10% out of state, and only recycles 24%, as compared to 47% in neighboring Massachusetts; and

**WHEREAS**, The Mid-Connecticut Project trash incinerator in Hartford burns about 2,200 tons of trash per day from 70 Connecticut communities, with a capacity of burning 2,850 tons of trash per day, thus making it the 5<sup>th</sup> largest trash incinerator in the country; and

**WHEREAS**, Trash incineration releases toxins such as sulfur dioxide, nitrogen oxide, metals, carbon monoxide and dioxin which are not only linked to cancer, asthma, and diabetes, but also to contributing to Hartford's childhood asthma rate of 20%; twice the national average; and

**WHEREAS**, The operation of the trash incinerator 24/7 makes the facility rely on a constant supply of trash, discouraging the diversion of trash to other uses such as reuse, recycling, rebuilding and refurbishing; and

**WHEREAS**, Recycling sustains 10 times more jobs per ton than land filling or incineration; and

**WHEREAS**, The City of Hartford is charged a tipping fee of \$69 per ton for garbage and zero for recycled material, thus increased recycling would save the city money at a time of budget shortfall; and

**WHEREAS**, Other countries, states and communities around the world have set a *goal to aim towards zero waste* to maximize recycling, minimize waste, reduce consumption and ensure

that products are made to be reused, repaired or recycled back into nature or the marketplace, thus creating thousands of jobs; and

**WHEREAS**, There is consideration of the option by CRRA of closing one of its boilers in the near future and there may be an opportunity to request closure of a boiler in the upcoming DEEP air permit renewal process; now, therefore be it

**RESOLVED**, That the City Council/Mayor go on record as calling for closing one of Hartford's trash incinerator's three boilers by the end of 2012, as a step toward reducing dependence on incineration and that a plan be developed to continue to reduce incineration in the Hartford area; be it further

**RESOLVED**, That the City Council/Mayor go on record as working toward zero waste and developing an economic development plan to create jobs for the residents of Hartford by encouraging expanded recycling, reuse and repair alternatives, such as recycling of electronics, furniture repair and composting that is environmentally friendly, as well as recycling education and outreach to help ensure that all that is recyclable is recycled in the City of Hartford; be it further

**RESOLVED**, That all the residents, property owners and business-people are encouraged to take responsibility to help further increase the rate of recycling in Hartford; be it further

**RESOLVED**, That all property owners be required to provide recycle bins for their tenants and all tenants recycle in accordance with state law; and be it further

**RESOLVED**, That all residents of the city educate themselves on the savings for themselves and their community that comes with increased recycling rates, as well as be informed of the law requiring recycling.
