Public Works

Mission Statement:

The mission of Public Works is to create a safe and healthy environment through the implementation of infrastructure maintenance and enhancements of parks, roadways, traffic systems, municipal buildings, vehicles/equipment, flood control systems and the collection of solid waste and recyclables.

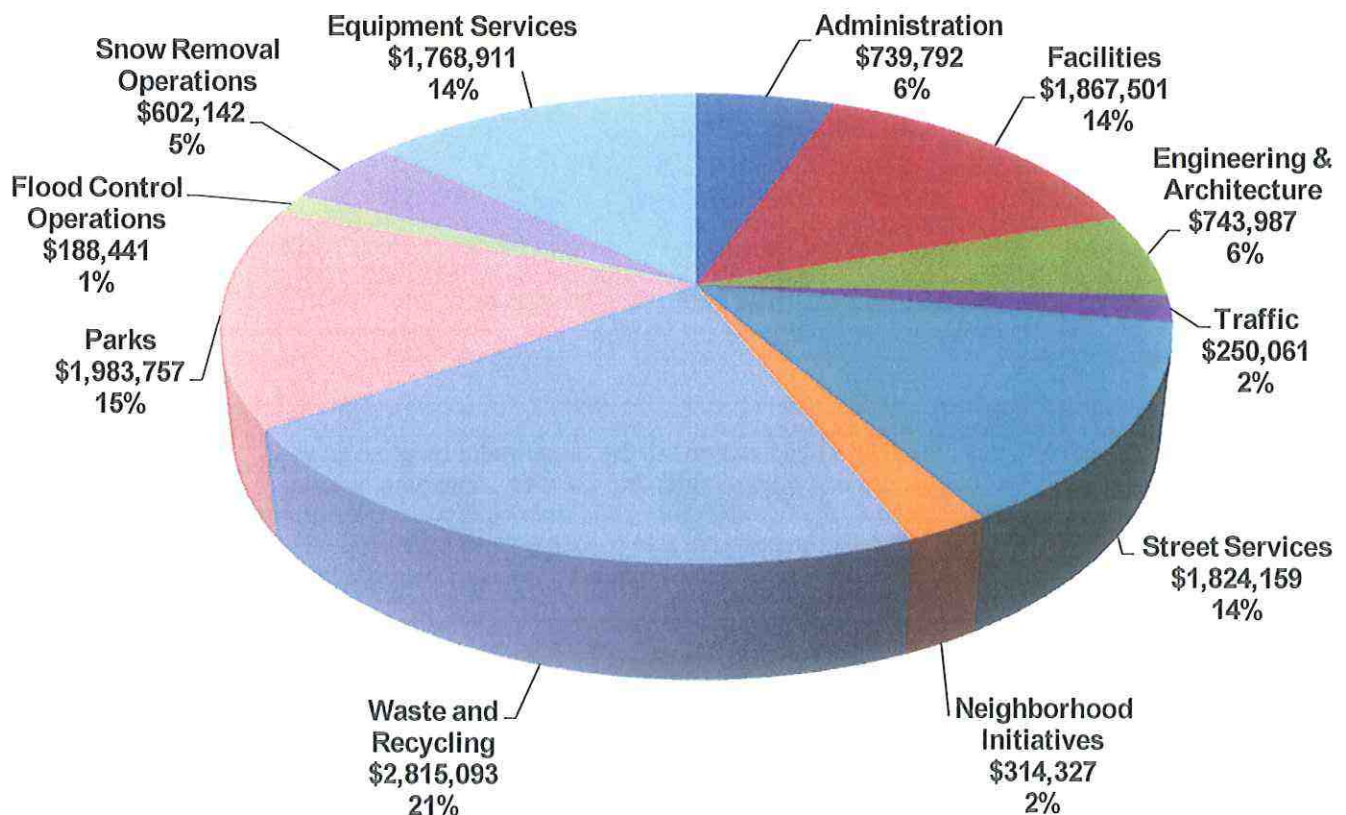

Significant Features:

The Recommended Budget for Fiscal Year 2013-2014 is \$13,098,171. This reflects a decrease of \$359,012 or 2.7% compared to the Adopted Budget for Fiscal Year 2012-2013. The net decrease is the result of centralizing capital items in the Capital Budget, split funding of Living and Sustainable Neighborhood Initiative (LSNI) positions and a reduction to overtime expenditures offset by salary contractual increases.

Strategic Plan Initiatives:

- Enhance the delivery of parks maintenance, repair, and security to safely support the positive use of park and cemetery facilities for recreation, events, and casual use.
- Implement and maintain infrastructure improvements for parks, roadways, traffic control systems, municipal buildings, and flood control systems to protect the safety and quality of life of constituents.
- Deliver efficient services for the collection of solid waste and recyclables; and manage energy use to provide value and protect the environment.
