MAYOR URGES PROPERTY OWNERS TO REMOVE SNOW FROM ROOFS WITH WARMER TEMPERATURES

---NEWS AND COMMUNITY STATEMENT---

With so much concern and needed attention to roofs, especially flat roofs, Hartford Mayor Pedro E. Segarra and city officials urge property owners to remove the melting ice and snow from roofs.

“Today’s warmer temperatures, combined with the record amount of snow and ice, make for a dangerous combination. It is imperative that property owners remove the build-up to reduce the chance of damage or collapse. Rental tenants should contact their building owner to arrange for similar action,” said Mayor Segarra.
