SNOW REMOVAL PROCEDURES

---NEWS RELEASE---

(February 9, 2011)--- During the course of Hartford's earnest snow clearing operations, an OSHA inspector alerted the City to OSHA requirements and the City is taking action to comply. This is in regards to roof work being done on the main branch of the Hartford Public Library.

The City of Hartford expects to be treated fairly by OSHA as businesses and communities throughout the state have confronted the same challenges during this unprecedented winter season.

Mayor Pedro E. Segarra said, "My administration believes in compliance and will be in step with OSHA's requirements. It is essential that we ensure everyone's safety."
