SNOW REMOVAL PROCEDURES UPDATE ACTION PLAN FOR THURSDAY, FEBRUARY 10TH

---NEWS AND COMMUNITY RELEASE---

Crews with Hartford's Department of Public Works continue their on-going street-cleaning efforts to remove snow and ice from City streets to ensure public safety.

On Thursday, the snow blower will once again be in the Blue Hills neighborhood. Work done with the "snow dragon" is now complete and that piece of machinery will now be utilized by the City of New Haven.

DPW crews will also continue to concentrate on streets in the Parkville and Asylum Hill neighborhoods--- particularly near Saint Francis Hospital and Medical Center to Garden Street. Restricted parking will be posted and enforced.

Mayor Pedro E. Segarra urges property owners to shovel snow from walkways, driveways, and sidewalks. Please clear away snow from fire hydrants and do not shovel snow back into the streets.

Residents with questions are asked to call 311, the City's non-emergency information line or call the Mayor's Constituent Services Office.
