

IT'S IN OUR HANDS

CENSUS JOBS APPLY NOW!!!

Census time is here!

Questionnaires are being delivered this month and the Census is continuing to recruit for full-time and part-time census workers. They offer great pay at \$19.75 per hour, flexible hours, paid training and reimbursement for work-related expenses, like mileage. The Census needs your help in ensuring that they have census workers from your neighborhood. The Census hire locally, because local workers know their communities best! Please encourage your clients, constituents, customers, friends and family members to consider working on Census 2010.

All Census applicants are required to take a 1/2 hour basic skills test. Links to the application materials you will need (including a practice test that you can share) can be found here:

<http://2010.census.gov/2010censusjobs/application-material/>

Census applicants are also required to bring 2 forms of identification to the test session. For a list of proper identifications and for more information on Census jobs, visit our website at www.2010censusjobs.gov.

To sign up for a test, call our toll-free Jobs Line number at (866) 861-2010.

Thank you for your help in supporting the Census 2010. Together we can make a difference. It's in our hands.

Respectfully,

United States
