## For Immediate Release

May 12, 2011

**Hartford (CT)...** Engine Company 10 has relocated temporarily from 510 Franklin Ave to 197 Main Street for approximately 90 days while the station undergoes renovations. Due to the diversity of the neighborhood, signs announcing the station closure have been posted on the building in English, Spanish and Bosnian.

Renovations include efficiency upgrades to the windows, cooling, lighting and electrical system. Asbestos removal is also taking place. The station was built in 1959 and has not seen a major renovation since that time.

While the renovations are underway, Engine Co 10 will still be in the neighborhood, maintaining the grounds, and checking the Emergency Call Box. Firefighter Ralph Martin and LT Helene Lynch are seen here conducting one of two daily checks of the box.

Questions or concerns about the station relocation, renovation project or related concerns can be directed to the Hartford Fire

Department Public Information Officer, Capt James McLoughlin at 860-757-4505 or [McloJ001@hartford.gov](mailto:McloJ001@hartford.gov)
