EDWARD CASARES, JR.
Fire Chief

Fire Company #15 Temporarily Closed to Replace Boiler

News and Community Release

The Hartford Fire Department will be undergoing a boiler replacement project at Company # 15 (The Mayor Michael Peters Firehouse) located at 8 Fairfield Avenue, beginning June 1, 2010.

This boiler has been used since the days of coal heating. Over the past 100 years, it has been converted from coal to diesel and finally to today's natural gas fuel. It will be replaced with a modern, high efficiency heating system that will be installed so that the department can meet the demands of its mission for the next 100 years.

The two fire apparatus presently at this house will be temporarily re-located to firehouses in the surrounding districts. Emergency services will not be impacted by this move.

This long term project is scheduled to be completed in September 2010.

Captain Ronald J. Chance
Executive Officer
Hartford Fire Department
