Mammogram Screenings Onsite May 20th & 27th at Hartford Public Library

News and Community Advisory

Picture this: a group of 8 women are standing together. According to statistics, one of those women will get breast cancer. That amounts to 13% of the women in the United States. You've heard the phrase the best offense is a great defense? Research shows that regular mammograms, especially for women over the age of 40, are the best way to lower the risk of breast cancer.

One message is clear: ***Preventive screenings can and do save lives!***

To help promote a Healthy Hartford and healthy living, Hartford Hospital will have its Mobile Mammography Van at the Main Branch of the Hartford Public Library at 500 Main Street in Downtown Hartford on May 20th and May 27th from 10 a.m. to 1:45 p.m. This is to provide screenings for women who work for the City of Hartford and Board of Education but also the women in our community. Screenings will take place on the second floor of the library.

This is an important opportunity for ladies who have not had a mammogram in the past twelve months. Hartford Hospital is participates with many health plans. ***If you don't have insurance, this service will be provided to you at no cost!***

To register, please contact Kathy Setaro or Stacy Castiglione in the Benefits Division of Human Resources at (860) 757-9860. You will receive a registration intake form and information regarding the screening process. Call today to take that first and very important step in maintaining a healthy lifestyle.

Special thanks to the Partnership for Breast Care and to Hartford Hospital.

The Partnership for Breast Care is a comprehensive breast care center the works with different specialists in helping to evaluate and treat breast issues. The partnership includes Hartford Hospital in addition to other area specialists.
